CONVERTIBLE

Our Newest Contribution to the Convertible Puts the Offshore Life in Reach

In its size range, the new Thirty Three Convertible is an incomparable value. Remarkably seaworthy, this stylish bridgeboat has the self-assurance of a deepwater yacht, stable and dry in rough seas and tidal rivers. Her performance is robust; her tracking ability, excellent. Captains will thrill to the power of twin Crusader engines as they navigate on a flying bridge designed for optimum visibility. The main cabin features a sleeper sofa and dinette. The galley boasts Corian® countertops, a microwave, single-burner cooktop, and an undercounter refrigerator/freezer. A windshield with opening and screened salon windows creates a light, airy atmosphere. Below, is a generously proportioned master stateroom. Rare in this size boat is a genuine second stateroom with double berth, a cedar hanging locker, and standup changing area. With the Thirty Three, Silverton creates an entry level Convertible with the bluewater performance, international styling, and rugged construction on which it has built a reputation as boating's value leader.

Our entry-level Convertible, the 33C features a second stateroom with double berth, hanging locker, and standup changing area – rare in this size range. These features are coupled with a forward master and a roomy galley-up salon to provide the feel of a larger boat.
